WALLS

DESK DIVIDERS AND PARTITIONS

Introducing a new addition to the HIDE range

HIDE Walls desk dividers complement the existing HIDE Phone Booths line of acoustic booths.

Our partitions perfectly divide workplaces, allowing office workers to better focus on their duties and individual work at their posts. The panels increase working comfort and help with concentration, while their optimum height does not limit contact with other colleagues.

The base of the partition construction is a wooden frame, which guarantees the stability and durability of the partition for many years.

In the basic colour group, we offer panels in 2 shades of grey felt - the same felt that is used to upholster our HIDE cabins. In the other price groups, we offer excellent quality wool felt in beautiful colours, as well as upholstery fabrics of the highest quality, which will give any interior a modern touch.

Discover the competitive advantages of HIDE Walls acoustic panels

- The solid construction on a wooden frame guarantees the stability of the panel for many years.
- In the **BASIC** version, the panels are covered with grey HIDE felt, known from the HIDE Phone Booths.
- In the **PREMIUM** version, the panels are covered with an excellent quality Italian wool felt or a fabric with an interesting, fashionable pattern.
- Mobile floor stand for easy transport of the panel around the office of the "take it with you" type.
- Desk stand enabling the panel to be removed at any time without dismantling the the holder.
