

HIDE H1+

Single-person acoustic pod with desk

A modular acoustic pod designed for one person. Equipped with a wide, additionally strengthened desk that can easily accommodate a laptop. It provides ideal conditions for phone calls and online meetings, as well as for tasks that require special focus.

Dimensions	220 x 123 x 106 cm (H x W x D)
Weight	383 kg (solid back wall) / 357 kg (glazed back wall)
Interior and exterior walls material	felt, 3 mm thick + oak plywood (exterior ceiling and front panel)
Sound insulation	Class B (according to ISO 23351-1)
Fire-resistant materials	All materials have a fire reaction classification of at least B-s2,d0 in accordance with standard EN 13501-1
Colour options	dark / light version or 38 colours of premium felt or oak plywood
Back panel options:	back wall made of board or laminated acoustic glass

Ventilation	4 x silent fans with a total air flow of 495 m3/h (2 pcs. in the ceiling and 2 pcs. in the floor), automatically activated by a presence detector, airflow power adjustable via an intuitive touch panel
Shelf	shelf made of oak plywood with dimensions of 88 x 46 cm mounted at the height of 74 cm (for an office chair) or 110 cm (for a bar stool or for standing work)
Lighting	LED lighting activated automatically by a presence sensor with adjustable intensity via an intuitive touch panel
Magnetic doors	doors made of laminated acoustic glass with a neodymium magnetic latch; handle made of oak wood
Sockets	1 x electric socket 230V + 2 x USB sockets

Efficient ventilation system

Our pods have the most efficient ventilation system on the market. One draws air in, the other pushes it out. The fans are located in the floor and ceiling of the cabin and have adjustable air output.

Optimum sound insulation

By striking a compromise between the weight of the pods and their soundproofing, we have achieved a design that is both lightweight and perfectly soundproof. We have also ensured that the glazed enclosure doors fit perfectly into the frame, guaranteeing excellent sealing.

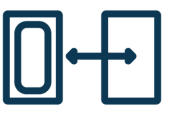

2 colour options

In the standard version, our pods are covered with felt available in 2 shades of grey: light grey and dark grey. By keeping the basic colour scheme, we can build up stock, which is a guarantee of fast order fulfilment.

Functional equipment

Standard equipment for each HIDE acoustic pod includes motion-sensor-activated lighting, 230 V power sockets, USB and a ventilation power regulator.

2 types of back wall

Solid backs work well if the pod is placed against a wall. Enclosed on 3 sides, the pod gives complete privacy to the person inside. The glazed back, on the other hand, will let daylight into its interior - a great choice for pods positioned in the middle of an office.

Modular construction

HIDE pods are modular, which means they are easy to assemble. A single-person pod can be up and running in your office in under an hour, with minimal disruption.
