

HIDE H2

Meeting room for 2 people

A comfortable, modular meeting room designed for 2 people. It does not take up much space and fits into any office interior. It provides an ideal condition for 1:1 meetings or video conferences and for tasks that require focus.

Dimensions	220 x 201 x 106 cm (H x W x D)
Weight	420 kg (solid back wall) / 455 kg (glazed back wall)
Interior and exterior walls material	felt, 3 mm thick + oak plywood (exterior ceiling)
Sound insulation	22,6 dB (norm: ISO 23351-1)
Colour versions	dark/ light version or 37 colours of premium felt or oak plywood
Options available	back wall made of board or double-glazed laminated safety glass

Ventilation	8 x silent fans with a total air flow of 990 m3/h (4 pcs. in the ceiling and 4 pcs. in the floor), automatically activated by a presence detector, airflow power adjustment via an intuitive touch panel
Table and seats	table made of oak plywood with dimensions of 77 x 60 cm mounted at the height of 74 cm (height adjusted to the seats) + 2 x seats with dimensions of 79 x 50 x 45 cm (W x H x D) upholstered with comfortable sponge (5 cm thick) and fabric in light or dark gray colour
Lighting	LED lighting activated automatically by a presence sensor with adjustable intensity via an intuitive touch panel
Magnetic doors	doors made of laminated safety glass (double glued) with a safe magnetic door closing (neodymium magnets); handle made of oak wood
Sockets	2 x electric sockets 230V + 2 x USB sockets

 Efficient ventilation system Our cabins have the most efficient ventilation system on the market. The fans are located in the floor and ceiling of the cabin and have adjustable air output.	 Optimum sound insulation By striking a compromise between the weight of the cabins and their soundproofing, we have achieved a design that is both lightweight and perfectly soundproof. We have also ensured that the shower enclosure doors fit perfectly into the frame, guaranteeing excellent sealing.	 2 basic colour versions In the standard version, our cabins are covered with felt available in 2 shades of grey: light grey and dark grey. By keeping the basic colour scheme, we can build up stock, which is a guarantee of fast order fulfilment.
 Functional equipment Standard equipment for each HIDE acoustic cabin includes motion-sensor-activated lighting, 230 V power sockets, USB and a ventilation power regulator.	 2 types of back wall The version with a built-in back wall will provide the cabin user with complete privacy. The glazed back, on the other hand, will let daylight into its interior - a great choice for cabins positioned in the middle of an office.	 Modular construction HIDE booths are modular, which means they are easy to assemble. A single booth can stand in your office in as short as 1 hour, without disrupting your office workflow.
