PHONE BOOTHS

Learn more about the **technical parameters** of HIDE acoustic cabins.

HIDE acoustic cabins are designed to enhance individual work and group meetings, providing a sense of comfort, privacy, and promoting concentration. They are ideal for offices, production halls, restaurants, and libraries, where finding a quiet place for phone calls or discussions can be challenging. HIDE acoustic booths are a perfect solution to create a peaceful environment and ensure privacy in limited spaces.

Options available	back wall made of board or double-glazed laminated safety glass	back wall made of board or double-glazed laminated safety glass) shelf at a height of 74 cm (for an office chair) or 110 cm (for a barstool/standing)	back wall made of board or double-glazed laminated safety glass	back wall made of board or double-glazed laminated safety glass	without equipment or fitted with a multifunctional desk
Colour versions	dark/ light version (standard options) or 37 colours of premium felt (extra paid) or oak plywood (extra paid)				

HIDE H1

Single booth

A comfortable acoustic cabin designed for one person. It doesn't take up much space and fits into any office interior. It provides perfect conditions for making phone calls or teleconferences.

Dimensions	220 x 100 x 106 cm (H x W x D)
Weight	222 kg (solid back wall) / 243 kg (glazed back wall)
Interior and exterior walls material	felt, 3 mm thick + oak plywood (exterior ceiling)
Sound insulation	acoustic class C (according to current standards)
Colour versions	dark/ light version or 37 colours of premium felt or oak plywood
Options available	back wall made of board or double-glazed laminated safety glass

Ventilation	4 x silent fans with a total air flow of 495 m3/h (2 pcs. in the ceiling and 2 pcs. in the floor), automatically activated by a motion detector, adjustable by a convenient knob
Shelf	shelf made of oak plywood with dimensions of 80 x 28 cm mounted at the height of 110 cm
Lighting	LED lighting switched on automatically on a motion detector
Magnetic doors	doors made of 8 mm tempered glass with a safe magnetic door closing (neodymium magnets); handle made of oak wood
Sockets	1 x electric socket 230V + 2 x USB sockets

Efficient ventilation system

Our cabins have the most efficient ventilation system on the market. The fans are located in the floor and ceiling of the cabin and have adjustable air output.

Optimum sound insulation

By striking a compromise between the weight of the cabins and their soundproofing, we have achieved a design that is both lightweight and perfectly soundproof. We have also ensured that the shower enclosure doors fit perfectly into the frame, guaranteeing excellent sealing.

2 basic colour versions

In the standard version, our cabins are covered with felt available in 2 shades of grey: light grey and dark grey. By keeping the basic colour scheme, we can build up stock, which is a guarantee of fast order fulfilment.

Functional equipment

Standard equipment for each HIDE acoustic cabin includes motion-sensor-activated lighting, 230 V power sockets, USB and a ventilation power regulator.

2 types of back wall

The version with a built-in back wall will provide the cabin user with complete privacy. The glazed back, on the other hand, will let daylight into its interior - a great choice for cabins positioned in the middle of an office.

Modular construction

HIDE booths are modular, which means they are easy to assemble. A single booth can stand in your office in as short as 1 hour, without disrupting your office workflow.

HIDE H1+

Enlarged single booth

Modular acoustic cabin designed for one person. Equipped with a wide, additionally strengthened desk that can easily accommodate a laptop. It provides ideal conditions for phone calls and online meetings, as well as for tasks that require special focus.

Dimensions	220 x 123 x 106 cm (H x W x D)
Weight	285 kg (solid back wall) / 319 kg (glazed back wall)
Interior and exterior walls material	felt, 3 mm thick + oak plywood (exterior ceiling and front panel)
Sound insulation	acoustic class C (according to current standards)
Colour versions	dark/ light version or 37 colours of premium felt or oak plywood
Options available	back wall made of board or double-glazed laminated safety glass

Ventilation	4 x silent fans with a total air flow of 495 m3/h (2 pcs. in the ceiling and 2 pcs. in the floor), automatically activated by a motion detector, adjustable by a convenient knob
Shelf	shelf made of oak plywood with dimensions of 88 x 46 cm mounted at the height of 74 cm (for an office chair) or 110 cm (for a stool or for work in a standing position)
Lighting	LED lighting switched on automatically on a motion detector
Magnetic doors	doors made of 8 mm tempered glass with a safe magnetic door closing (neodymium magnets); handle made of oak wood
Sockets	1 x electric socket 230V + 2 x USB sockets

TOP SELLER

HIDE acoustic cabin is the winner of the Innovation Leader 2021 competition

We are proud to announce that we have been awarded the title of Innovation Leader 2021 during the 19th edition of the Promotional Emblem Competition at the INTARG trade fair, under the honorary patronage of the Ministry of Development, Labour and Technology.

This is a confirmation of the quality and innovation of our cabins.

Ministerstwo
Rozwoju i Technologii

Finalist in the Good Design competition

The simple, modern design of the HIDE two-person meeting room was recognised by the Institute of Industrial Design, which qualified it as a finalist in the prestigious Good Design competition in 2021.
